RESEARCH EXPERIENCE

A Dynamic Attention Deep Model for Article Recommendation by Learning Human Editors Demonstration
Oct. 2016 - Feb. 2017

Advisor: Prof. Yong Yu

APEX Data & Knowledge Management Lab, SJTU

- A text classification problem which focus on predicting discrete data with drift.
- Proposed a Dynamic Attention Deep Model(DADM).
- Automated the quality article selection process to alleviate the editors' working load.

INTERNSHIP EXPERIENCE

ULU Technologies Inc.

Nov. 2016 - May. 2017

R&D Engineer Intern

- Developed a practical algorithm for article recommendation which is on trial.
- Improved coding ability and learned how to conduct experiments fast.
- Got a main understanding of how AI start-up works.

AWARDS

- KDD Student Travel Award 1K USD 2017
- Excellent Student Award (Top 5%) 2016
- Excellent Scholarship C 2016
- Second Prize,province-level CUMCM2016 2016
- Second Prize,“Data Bang”Data Innovation Contest 2015
- Outstanding Undergraduate Research Program (Top 5%) 2015

SKILLS

Machine Learning:

Tensorflow, Scikit-Learn, SciPy, NumPy, xGBoost

Programming Languages:

MATLAB, Python, C++, Verilog and L^AT_EX

Standard Tests :

TOEFL: 93 (R 29, L 26, S 20, W 21)

EXTRACURRICULAR ACTIVITIES
